Dear [REDACTED]

After thinking about some of the problem areas you brought up during your recent trip to SRI's Radio Physics Laboratory, it occurred to us that the remote viewing technologies we have developed here are capable of making a contribution. Therefore, we have put together a statement of what we consider to be an optimum response with regard to useful analysis and quick turnaround.

We would appreciate your circulating this document to those responsible for the problem area in question. If there is interest in our proposed approach, we would then submit a formal proposal for consideration.

With best regards,

H. E. Puthoff, Ph.D.  
Senior Research Engineer  
Radio Physics Laboratory
